PRODUCT DESCRIPTION

Round ceiling downlight with a built-in power supply, designed for flush mounting in plasterboard structures, e.g. in suspended ceilings. This downlight uses SMD LEDs, which guarantee high energy efficiency and have a long service life. This luminaire works with rated power of 18 W and emits light with luminous flux of 1600 lm, with a neutral white color, which is 4000K. Material: PMMA + aluminum insert.

TECHNICAL DATA

General information:

Luminous flux:	1600 lm
Rated power:	18 W
Light source:	LED SMD
Degree of protection (IP):	20
Colour temperature:	4000
Nominal voltage:	230V~, 50Hz
Colour:	white
Installation:	flush mounting
Dimensions - depth:	32 mm
Dimensions - width:	220 mm
Dimensions - height:	220 mm
Other features:	built-in power supply, aluminum insert
Colour rendering index CRI:	>80
Material:	PMMA
