PRODUCT DESCRIPTION

This LED house lamp with number is a perfect solution for building facades or concrete fences. It is equipped with modern LED SMD diodes that guarantee high energy-efficiency and long service lifetime. This lamp operates with a power of 12W and 950lm. It glows with natural white light with a temperature of 4000K. The use of a twilight sensor means that the lamp turns on only when needed. High ingress protection IP65 protects inner parts of the lamp against dust, dirt and water, so this garden luminaire will easily survive even the most difficult weather conditions.

TECHNICAL DATA

General information:

Luminous flux:	950 lm
Rated power:	12 W
Light source:	LED SMD
Degree of protection (IP):	65
Colour temperature:	4000
Nominal voltage:	230V~, 50Hz
Colour:	white
Dimensions - depth:	52 mm
Dimensions - width:	300 mm
Dimensions - height:	195 mm
Other features:	Twilight sensor
Colour rendering index CRI:	>85
Material of the lampshade:	polycarbonate
Control of the motion sensor:	No
Adjustable daylight sensor (LUX):	Yes
Adjustable time setting (TIME):	No
