PRODUCT DESCRIPTION

This ENYE LED 3W outdoor wall light is distinguished by a simple, yet very modern shape. It is ideal to illuminate the walls of buildings, gazebos or terraces. Several such luminaires set together at a certain distance, for example along the driveway, will guarantee a very interesting and eye-catching visual effect. This outdoor lamp has a built-in light source in the form of SMD LEDs that emit light in a natural white color (4000K) and are characterized by a long service life. This facade luminaire is made of high-quality materials that protect the device from overheating and guarantee its durability even in difficult weather conditions. The product has a

high IP65 tightness protection level, thanks to which it is resistant to the ingress of dust, dirt and moisture. The lamp is available in grey.

TECHNICAL DATA

General information:

Luminous flux:	170 lm
Rated power:	3 W
Light source:	LED SMD
Degree of protection (IP):	65
Colour temperature:	4000
Nominal voltage:	230V~, 50Hz
Colour:	grey
Dimensions - depth:	70 mm
Dimensions - width:	160 mm
Dimensions - height:	33 mm
Colour rendering index CRI:	>80
Material of the lampshade:	ABS+PC
Other features:	IK 8
Control of the motion sensor:	No
