PRODUCT DESCRIPTION

The MALTA lighting collection has been designed to create a harmonious interior using different numbers of light points and base shapes. The greatest advantages are versatility and practicality. Each luminaire in the collection has an IP20 protection rating, making it a suitable choice indoors.

The products are highly functional thanks to the rotatable heads (360°) in the base, which allow the incident light to be directed to a specific location. They can also be used to illuminate a selected object.

The simple and minimalist design, combined with the rotating heads around their own axis, is ideal for any room, whether residential or commercial with a classic or modern interior.

MALTA SP 1 is a movable wall and ceiling surface-mounted luminaire in black with a round base. It is designed for a single GU10 light source with a maximum power of 12 W LED (not supplied). The luminaire has a high resistance to mechanical damage IK09.

The luminaire is made of aluminium. The product is also available in white.

TECHNICAL DATA

General information:

Nominal voltage [V]:	230
Lamp type:	Żarówka
Suitable for lamp power [W]:	12
Lamp holder:	GU10
Suitable for number of lamps:	1
With light source:	nie
Max. Power [W]:	12
Degree of protection (IP):	IP20
Impact strength:	IK09
Protection class:	I
Suitable for wall mounting:	tak
Suitable for ceiling mounting:	tak
Suitable for surface mounting:	tak
Material housing:	Aluminium
Colour housing:	Czarny
Height/depth [mm]:	115
Outer diameter [mm]:	62
