PRODUCT DESCRIPTION

This video viewer replaces the traditional optical viewers (so-called peepholes). It allows you to view a person standing directly in front of the door on the 3.5" color LCD screen. A discreet, wide-angle (110°) camera can be mounted in place of a standard optical viewer inside an opening 15 mm - 25 mm wide and in doors 50mm-100 mm thick. The device is very easy to use. It will be especially helpful for elderly people, short people and people with poor sight.
