Marka: **Virone** | Symbol: **LH/E27-30/W/PZ/10** | Ean: **5908254847899**

ViRONE

PRODUCT DESCRIPTION

The E27 cord-grip lampholder is a white standard light holder that is designed to mount an E27 bulb. It is a popular solution used during renovations and upgrades of lighting installations, when it is required to temporarily install lighting without using a lampshade or other decorative element.

Our E27 cord-grip lampholders have simple and durable design. They are installed with the help of screws. Connection block included.

E27 fixtures are easy to install and remove, which makes them a versatile solution for temporary lighting installation. However, it is worth remembering that the holders are not intended for permanent use and are not a full-fledged alternative to traditional light sources.

The length of the power cord is 0.15 m.

The set contains 10 pieces.
