Marka: **Virone** | Symbol: **LT-5** | Ean: **5908254817380**

ViRONE

PRODUCT DESCRIPTION

This LED flashlight is small, very easy to use and will work in all conditions – outdoors, at home or at a camping site. The light source in form of a powerful LED CREE XP-G2 10W diode, emits very bright light with a luminous flux of 800 lm. This pocket flashlight has 5 operating modes: bright white light / medium white light / low white light / strobe / SOS. The additional ZOOM function allows to adjust the light beam from x1, x250, x500x, x1000, x2000 and expands the lighting range up to 200m. The aluminum structure of the flashlight guarantees its durability and greater resistance to mechanical impacts and shocks. Its slightly rugged handle

ensures a firm grip. The flashlight is equipped with a wrist strap. The product is powered by 3 x AAA batteries (not included).
