

Electric mosquito killer lamp, 4xLED

Marka: **Virone** | Symbol: **MK-3** | Ean: **5908254814907**

PRODUCT DESCRIPTION

This electric lamp emits light (4 × LED) of a special color which effectively attracts and eliminates mosquitoes. After being attracted, the insects are killed by a strong electric charge placed on the grid in front of the light source, and then fall into the container underneath. The device operates without the use of chemicals and does not emit harmful substances to the environment. The light of the lamp is completely safe for people and animals. The device is ideal for homes, shops, hotels, mobile homes.
