Cable Connector, Straight, 5x6mm², 450V/30A

Cable connector simple in shape with high ingress protection level (IP68) which guarantees resistance against harsh outside conditions. The connection block has been equipped with a tight gasket and a thick rubber gasket for cable gland which perfectly seals all the cables inside. The material used for connector's production is resistant to UV rays and is suitable for outdoor use. Its contacts are made of brass with additional nickel layer to secure them against oxidation.

Wire cross-section:

6mm²

UV radiation resistance:

Number of wires:

5

Case flammability standard

UL94:

V1

Current:

30A

Degree of protection (IP):

68

General information

Connector type: straight

Wire cross-section: 6 mm²

Number of wires: 5

Cable gauge: 10-16 mm

Power supply: 450V

Current: 30 A

Contacts material: nickel-plated brass

Flame-resistant casing: yes

UV radiation resistance: yes

Case flammability standard UL94: V1

Dimensions - length (mm): 118 mm

Degree of protection (IP): 68

Type of connection: screw clamp

Underground installation: no

Material housing: PA6

Diameter: 30 mm
