

PRODUCT CARD

PRODUCT CODE: OR-DC-631

EAN CODE: 5908254804663

LPG gas detector 230VAC

The OR-DC-631 sensor is a modern LPG gas detector for indoor use. It is used for continuous monitoring of the presence and detection of LPG gas escaping from leaks. The device uses a high-quality electrochemical sensor to achieve a high detection rate. When a gas leak reaching the set alarm threshold is detected, the detector will emit a signal and a red LED will be activated.

Types of detected threats:
propane-butane

Test button:

Compliance with standards:
EN50194-1:2009

Nominal voltage:
230V~, 50Hz

Type of power supply:
directly to 230V

Alarm volume (db):
85

Life time of the sensor:
5 years

General information

Types of detected threats: propane-butane

Nominal voltage: 230V~, 50Hz

Alarm volume (db): 85

Test button: yes

Hush button: no

Type of power supply: directly to 230V

Failure indication: yes

End of life indication: yes

Life time of the sensor: 5 years

Compliance with standards: EN50194-1:2009

Dimensions - depth: 51 mm

Dimensions - height: 170 mm

Type of sensor: semiconductor
