

## Battery-operated carbon monoxide sensor, 9V, 7-year service life, EN 50291-1: 2018 compliant, tested in Poland

Marka: **ORNO Home** | Symbol: **OR-DC-633-TEST** | Ean: **5908254827860**

### PRODUCT DESCRIPTION

Battery-operated carbon monoxide sensor, 9V, 7-year service life, compliance with the EN 50291-1: 2018 standard, tested in Poland

## TECHNICAL DATA

### General information:

|                            |                                         |
|----------------------------|-----------------------------------------|
| Types of detected threats: | Battery-operated carbon monoxide sensor |
| Type of power supply:      | Battery                                 |
| Alarm volume (db):         | 85                                      |
| Nominal voltage:           | 1 x 9V DC                               |
| Life time of the sensor:   | 7 year                                  |
| Dimensions - width:        | 124 mm                                  |
| Compliance with standards: | EN 50291-1:2018                         |
| Display:                   | 25-999ppm "                             |
| Type of sensor:            | elektrochemiczny                        |
