

Wireless inductive charger, black

Marka: Orno | Symbol: OR-GM-9020/B | Ean: 5908254820687

ORNO

PRODUCT DESCRIPTION

This induction charger is used to charge devices compatible with the Qi V1.2 standard, such as tablets or smartphones, without the need to connect them with a standard cable. The charger has an automatic detection function. It starts charging after connection of power supply right after a receiver has been placed in the center of the charging pad. If the receiver is moved away, charging process is interrupted and the device goes into standby mode. This charger is designed for indoor installation, directly in furniture tops, desks, conference tables, etc. The Micro USB socket for power supply cord (not included) is located at the

bottom of the device.
