Wireless mini alarm with PIR motion sensor and a siren, with remote control

This wireless mini alarm with PIR motion sensor, has a detection range of 5 meters. It has a built-in siren and is remotely controlled. It helps to ensure safety and gives access control to the protected areas. The device is equipped with a ball joint and a mounting arm that can be adjusted in a wide range. This solution enables installation on the wall and on the ceiling. The device can operate in three modes: as an alarm, as a lamp and both.

Nominal voltage:
4 x AA

Detection angle:
120°

Doorbell volume (db):
90dB

Type of transmission:
IR
