EAN CODE: 5908254815973

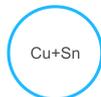

## MC4 connector for photovoltaic panels 100 pcs.

High-quality, full set of MC4 connectors (male and female) which are used to connect photovoltaic panels. The set is compatible with PV wires: 1.5-6mm<sup>2</sup>. Long service life of the device is guaranteed by high-quality finishing. Protection level IP67 ensures water and dust resistance. These connectors also present resistance against UV rays and harsh weather conditions, 100 pcs.

**Wire cross-section:**

1,5-6mm<sup>2</sup>

Cu+Sn

**Contacts material:**

Copper (100%) Tinned

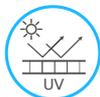

**Material housing:**

PC/PPO

**Power supply:**

1000V DC

**UV radiation resistance:**

**Current:**

30A

**Degree of protection (IP):**

67

## General information

**Connector type:** MC4

**Wire cross-section:** 1,5-6 mm<sup>2</sup>

**Number of wires:** 1

**Power supply:** 1000V DC

**Current:** 30 A

**Contacts material:** Copper (100%) Tinned

**UV radiation resistance:** yes

**Case flammability standard UL94:** V0

**Degree of protection (IP):** 67

**Type of connection:** clamp

**Underground installation:** no

**Material housing:** PC/PPO
