

MC4 connector for photovoltaic panels

Marka: Orno | Symbol: OR-PV-13605 | Ean: 5908254804335

PRODUCT DESCRIPTION

High-quality, full set of MC4 connectors (male and female) which are used to connect photovoltaic panels. The set is compatible with PV wires: 1.5-6mm². Long service life of the device is guaranteed by high-quality finishing. Protection level IP67 ensures water and dust resistance. These connectors also present resistance against UV rays and harsh weather conditions.

TECHNICAL DATA

General information:

Operating temperature:	-40 - 90°C
Connector type:	MC4
Wire cross-section:	1,5-6 mm ²
Number of wires:	1
Power supply:	1000V DC
Current:	30 A
Degree of protection (IP):	67
Contacts material:	Copper (100%) Tinned
UV radiation resistance:	Yes
Case flammability standard UL94:	V0
Type of connection:	clamp
Underground installation:	No
Material housing:	PC/PPO
