## 4xMC4 splitter, Y type for photovoltaic panels

4xMC4 splitter (Y type) for photovoltaic panels helps to connect the panels in a professional, safe and fast way. This product is compatible with PV wires: 1.5-6mm<sup>2</sup>. Long service life of the device is guaranteed by high-quality finishing. Protection level IP67 ensures water and dust resistance. These splitters also present resistance against UV rays and harsh weather conditions.

**Power supply:**  
1000VDC

**Current:**  
30A

**Case flammability standard  
UL94:**  
V0

**Wire cross-section:**  
1,5-6mm<sup>2</sup>

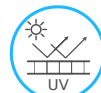

**Contacts material:**  
Copper (100%) Tinned

**Material housing:**  
PC/PA

**Insulation voltage:**  
0kV

**UV radiation resistance:**

**Other features:**

## General information

**Compliance with standards:**

**Connector type:** 4xMC4 ,Typ Y

**Power supply:** 1000VDC

**Wire cross-section:** 1,5-6 mm<sup>2</sup>

**Number of wires:** 4

**Current:** 30 A

**Contacts material:** Copper (100%) Tinned

**UV radiation resistance:** yes

**Case flammability standard UL94:** V0

**Degree of protection (IP):** 67

**Material housing:** PC/PA

**Weight:** 295,5 g
