PRODUCT CODE: OR-PV-13609

EAN CODE: 5908254804373

## 2xMC4 splitter, T type for photovoltaic panels

2xMC4 splitter (T type) for photovoltaic panels helps to connect the panels in a professional, safe and fast way. This product is compatible with PV wires: 1.5-6mm<sup>2</sup>. Long service life of the device is guaranteed by high-quality finishing. Protection level IP67 ensures water and dust resistance. These splitters also present resistance against UV rays and harsh weather conditions.

**Insulation voltage:**

6kV

**Current:**

30A

**Case flammability standard**

UL94:

V0

**Wire cross-section:**

1,5-6mm<sup>2</sup>

**Contacts material:**

Copper (100%) Tinned

**Material housing:**

PPO

**Power supply:**

1000VDC

**UV radiation resistance:**

## General information

**Contact resistance:** 0,5 mOhm

**Connector type:** 2xMC4 ,Typ T

**Weight:** 106.5 g

**Insulation voltage:** 6 kV

**Max. contact temperature:** 105

**Compliance with standards:**

**Wire cross-section:** 1,5-6 mm<sup>2</sup>

**Power supply:** 1000VDC

**Number of wires:** 2

**Current:** 30 A

**Contacts material:** Copper (100%) Tinned

**UV radiation resistance:** yes

**Case flammability standard UL94:** V0

**Degree of protection (IP):** 67

**Type of connection:** clamp

**Dimensions - depth:** 18 mm

**Dimensions - height:** 41 mm

**Material housing:** PPO
