PRODUCT DESCRIPTION

The intelligent wireless Tuya Smart socket is an innovative device which allows to remotely control the appliances connected in the home.

Thanks to integration with Tuya Smart platform, the user may remotely control the appliances from any place in the world. Simply install the app on a smartphone supporting Android and iOS systems. Managing of the socket may thus be remote with the help of Wi-Fi and app which provides control over appliances connected

to the socket.

The built-in energy meter allows to precisely monitor and fully optimize the electricity consumption via smart feature.

In addition, the timer allows to programme specific operating hours, which contributes to energy savings and increases the efficiency of the devices. The possibility of programming the working hours, the operating time of appliances and introducing random changes during holidays increases security.

The presented socket has one protective contact (Schuko) and is intended for surface mounting. It is made of high-quality glossy white plastic making the interiors look modern. The IP20 rate facilitates installation in dry rooms, such as living rooms, hallways or bedrooms. The dimensions measure 52x86x52 mm. Round body.

French type version also available.
