Bathroom fan 100mm, wall-mounted, silent operation - standard

Useful bathroom fan that automatically draws the moist air to the outside. It is designed for wall mounting. A very quiet device that will take care of the air quality in the bathroom, but will not disturb our relaxation zone. The fan has a compact design 135x135mm and a short exhaust pipe (100mm), which will fit even in shallow ventilation ducts. High-class bearings guarantee a long service life of the device.

Colour:
white

Nominal voltage:
230V~, 50Hz

Rated power:
8W

General information

Colour: white

Material: ABS

Dimensions - depth: 79 mm

Dimensions - height: 135 mm

Control: none

Static pressure: 30 Pa

Sound pressure: 26 dB

Rotation speed: 2400 rpm

Air flow: 93 m³/h

Nominal voltage: 230V~, 50Hz

Type of assembly: wall

Bearing: plain bearing

Diameter: 100 mm

Rated power: 8 W

Installation depth: 67 mm
